Your
TALENT & Abilities
will improve over time
but for that
you have to
START

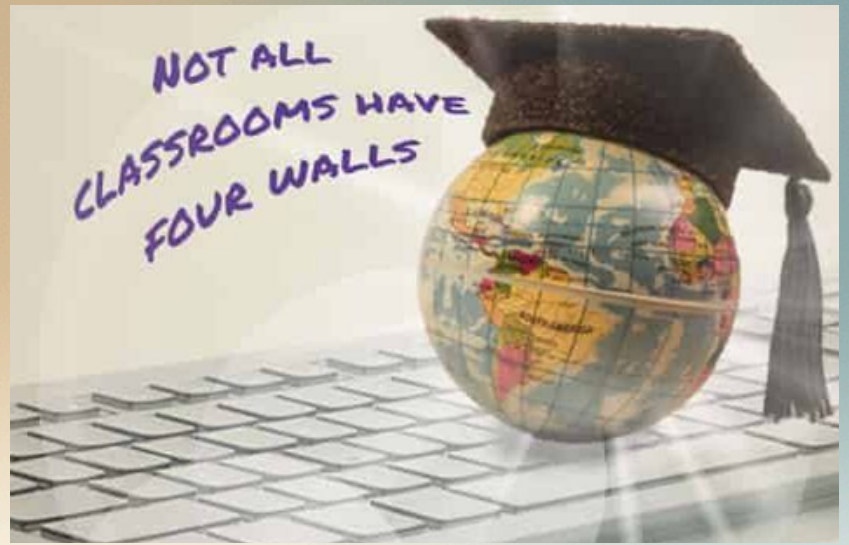

The University Fair's vision—to foster global citizenship—is an inspiring initiative that broadens students' educational horizons. By connecting young learners with a wide range of international higher education opportunities, the fair nurtures a global outlook and inspires them to think beyond boundaries.

University Fair 2025 – Inspiring Dreams, Shaping Future

D Y Patil International School, Navi Mumbai proudly hosted the Annual University Fair on 23rd August, 2025, a dynamic platform designed to help students explore a wide spectrum of academic and career pathways. Representatives from leading national and international universities engaged with students, offering first-hand insights into diverse programs, admission procedures, and global opportunities.

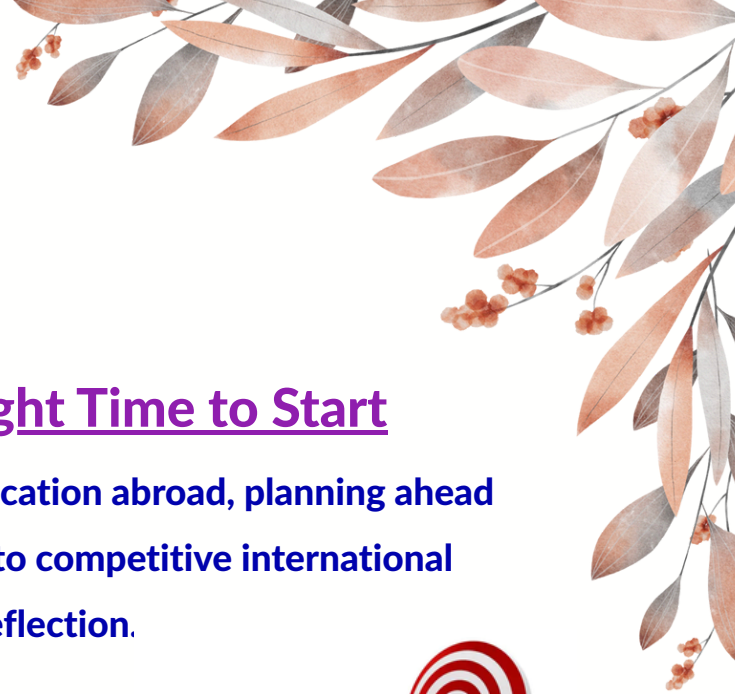

Students were encouraged to ask meaningful questions, allowing them to gain clarity and confidence about their next steps. Parents also participated actively, emphasizing our shared commitment to shaping informed choices for the future.

College Applications - The Right Time to Start

For students aspiring to pursue higher education abroad, planning ahead is key. University applications—especially to competitive international institutions—require time, research, and reflection.

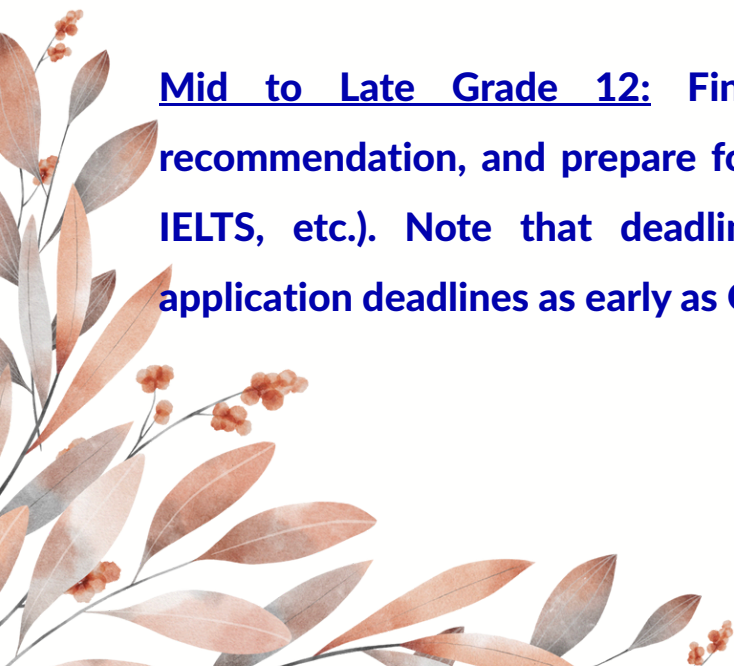

Recommended timelines:

Grade 9–11: Begin exploring your interests, possible majors, and target countries. Participate in summer programs, internships, and extracurricular activities that align with your goals.

Start of Grade 12: Shortlist universities, understand their admission requirements, and begin drafting personal statements or college essays.

Mid to Late Grade 12: Finalize applications, request letters of recommendation, and prepare for any required entrance tests (SAT, ACT, IELTS, etc.). Note that deadlines vary—some universities have early application deadlines as early as October.

The Counselling Department is dedicated to supporting students and their families at every stage of this journey. Through regular workshops, personalized one-on-one guidance sessions, and informative university briefings, the department ensures that students are well-prepared, confident, and equipped to take this important next step toward their future.

THE BEST WAY TO
PREDICT YOUR FUTURE
IS TO CREATE IT.
